## Useful tips when taking PLENVU®1

Please read along with the PLENVU<sup>®</sup> instructions provided by your Health Care Professional and the PLENVU<sup>®</sup> Consumer Medicine Information<sup>1</sup> provided in the PLENVU<sup>®</sup> pack

- Dissolve PLENVU® in water (not chilled).
- This may take up to approximately 8 minutes to dissolve completely and is best performed by placing the powder into a mixing cup or container first then add the water.

- DOSE 1 and DOSE 2 of dissolved PLENVU<sup>®</sup> can be made up at the same time, covered and stored in the fridge.<sup>1</sup>
- Do not keep these solutions for more than 24 hours.<sup>1</sup>

- Drink the 500 mL PLENVU® DOSE 1 solution <u>slowly over 30 minutes</u> at the time you were given.
- Drink the 500 mL PLENVU® DOSE 2 solution <u>slowly over 30 minutes</u> at the time you were given.

Macrogol 3350, Sodium Ascorbate, Sodium Sulfate, Ascorbic Acid, Sodium Chloride and Potassium Chloride

• Try using a straw to ensure you drink your PLENVU® doses <u>slowly over</u> <u>30 minutes.</u>

- After you have drunk both DOSE 1 and DOSE 2, <u>slowly over 30 minutes</u>, drink an additional 500 mL of clear fluids.
- Stay well hydrated by consuming plenty of clear fluids.
- Clear fluids include water, clear soup, diluted cordials (no red or dark colours), clear fruit juice (without pulp), herbal tea, black tea or coffee (without milk).

- You will have lots of watery bowel movements, so stay near a toilet because you may need to use it urgently.
- If you are constipated, ask your doctor, nurse or pharmacist to recommend a laxative to use at least a <u>few days before</u> you are due to start PLENVU<sup>®</sup>.
- You may use a barrier cream (e.g. Vaseline®) around the anus to prevent a sore bottom.
